

## Thalidomide Flowchart for Prescribing

Photocopy script (for haem notes) and post to patient or take to Chch Hospital Pharmacy.

Patient take Thalidomide script to local Hospital Pharmacy (registered with Pharmion). Has 7 days from when script written. Pharmacy will phone PHarmion to obtain a Confirmation number (only issued if all parties (i.e., prescriber, patient, and pharmacy) are registered and the telephone surveys have been completed.

Capsules are couriered out to the patient the first time they are dispensed, but the following month there will be sufficient stock in pharmacy.

**Note:** Telephone surveys need to be completed for 12 months.
